

**Product Specifications**

 Commercial Water Coils  
 2, 4 or 6 Row

# CWC Series

**Up to 20 Tons Clg, 900,000 BTU Htg.**

The **CWC** series water coils are available for immediate delivery to provide desired heating and cooling capacities using hot or chilled water. These coils are manufactured with copper tubes and aluminum fins for high efficiency performance. All coils are pressure tested to 350 PSI to ensure leak-proof operation. Coils are available in 2, 4 and 6 row configurations.

- Notes:** 1) To determine heating capacity at other than 180°F entering water temperature and 70°F entering air temperature, multiply the selected heating capacity at 180°F times the appropriate correction factor from above chart.  
 2) These correction factors may be used on all ASP published 180°F heating capacities.
